Subject: [EXTERNAL] Young brothers shipping

We are writing because we are concerned that young brothers is seeking to change their shipping arrangements of livestock from trailers to containers. They are already seeking to reduce container arrivals to the islands they now want the farmers to start shipping livestock from trailers to containers. The cost to do this would triple our Cost as well as add additional fees for move on and move off of livestock. Pretty much put us farmers out of business. Living on an island this would devastate hard working farmers. We are asking that the PUC do not pass their request as our livelihood depends on this. Would be interested in attending any meeting to discuss this matter. Appreciate your time and consideration.
