I think this decision is wreckless to the Hilo community and to the farmers and small businesses that supply the state with produce with what is going on in the U.S right now with the food shortage we should be ramping up shipping within the islands instead of cutting back and passing the cost to consumers and the community it doesn't make sense Hilo is the 3rd largest producing port in the state Honolulu is 1 Maui 2 and Hilo is 3.As far as produce Hilo has the most but as of right now they are forcing farmers and businesses to truck there goods over and the cost are just going to add up and put all the farmers out of business ridiculous.I humbly ask not to extend the schedule change and bring the two sailings back.Your decision will have a great impact on the island.
