I am writing in regards to giving young brothers the help they need in order to bring there schedule back to normal so this doesn't impact the islands severely the big island is already in dire need of more cargo to the island farmers are shuttering businesses are closing you guys have the power to give them the rate increase and also help them get the emergency funding they desperately need I am an owner of two small businesses in Hilo and we need the two sailings a week to keep our doors open the decision is in your hand make it right for the people of the state and the future of the islands which we call home.
